Description

The newly revised Scarab II from Microtech Knives certainly sounds impressive! With the updated handle grip tape inlays and the new OTF drive system, it's great to hear about the improvements in smoothness and reliability. The choice of M390MK blade steel is also a significant upgrade, enhancing performance. Here's a quick summary of the specifications:

- **Blade Length:** 3.9"
- **Overall Length:** 9.6"
- **Blade Steel:** M390MK
- **Handle Material:** 6061 T6 Aluminum
- **Weight:** 5.56 oz
