Product Code: 2

Availability: In Stock

Weight: 0.00lb

Dimensions: 0.00in x 0.00in x 0.00in

Price: \$2,000.00

Description

The LU DT is a folding knife from Microtech® that combines both form and function. Initially, it was offered in various sizes (small, medium, and large) and featured rubber Kraton inlays. However, it has since been streamlined into a single size with a sleek, grooved, and contoured aluminum handle. The handle includes jimping for enhanced grip, which extends onto the spine of the blade. A standout feature of the LU DT is its explosive deployment mechanism, which is unusual for a knife of its size.

Key specifications include:

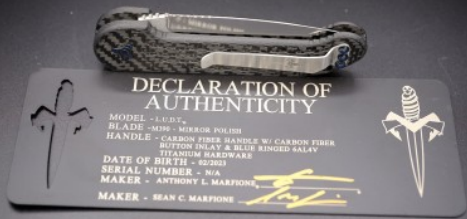

- Blade Steel:** M390
- Blade Length:** 3.42 inches
- Handle Material:** Carbon Fiber
- Overall Length:** 8.03 inches
- Weight:** 3.6 ounces

CONDITION PREOWNED/EXCELLENT

Overall, the LU DT is appreciated for its reliable design and sharp, durable blade.
